- **Options for Independent Living**
- **Valley Packaging Industries**

On April 1, 2010 Outagamie County will begin the transition from the current waiver funded long term Community Support system run by County Government to the new system of Long Term Care. This change will impact current consumers of the CIP and COP waivers and those on the wait list who will be able to choose from the following options:

- **Family Care**
- **Family Care Partnership**
- **IRIS**
- **Medicaid Forward Health Card Only**

Please join us on Thursday, December 3rd, 2009 to learn more about Family Care and Family Care Partnership Programs, operated by Community Care, Inc. in Outagamie County. Family Care will incorporate all home and community based long term care services offered to the elderly, and people with physical and developmental disabilities currently provided under the Medicaid waiver programs. Family Care Partnership Program provides a health care benefit in addition to the home and community based long term care services.

The presentation is planned for consumers, family members, guardians and others interested in learning more about Family Care and Family Care Partnership. Information included:

- Who is Community Care, Inc.?
- What is Family Care and Family Care Partnership? Who is eligible?
- How do I decide between Family Care or Family Care Partnership?
- How is my service plan created?
- What types of goods, services and supports are provided by Family Care or Family Care Partnership?
- What type of ongoing assistance is available to help manage my services?
