PURPOSE:

1. A national retirement income supplement available to nine out of ten Americans over 65 years of age (persons age 62 may qualify under certain conditions). Monthly benefits are available to workers upon retirement, to their dependents and/or survivors, and to the severely disabled.
2. To provide health insurance through Medicare for partial payment of hospital, post-hospital and other medical expenses.

MEDICARE is a Federal health insurance program, which helps defray many of the medical expenses of most Americans over the age of 65. Persons eligible for Social Security may also apply for Medicare benefits.

Older persons should apply for Medicare benefits three months prior to the 65th birthday. Working persons over 65 are entitled to Medicare even though they do not apply for Social Security.

Medicare has two parts:

PART A -- HOSPITAL INSURANCE

Medicare Part A helps pay the cost of inpatient hospital care, In some instances, and under certain conditions, Part A helps pay for inpatient care in a skilled nursing facility, home health care and hospice care.

PART B -- MEDICAL INSURANCE

Part B helps pay for medically necessary doctors' services, outpatient hospital services and some other medical services. Enrollees must pay a monthly premium for Part B.

Medicare will pay for many health care services but not all of them. Medicare does not cover custodial care or care that is not determined to be reasonable and necessary for the diagnosis or treatment of an illness or injury.

It is possible to privately purchase supplemental health insurance. This is sometimes referred to as "Medigap". Before purchasing a policy, care should be taken to assure that the plan provides the coverage that the older person wants and needs.

3. **SUPPLEMENTAL SECURITY INCOME (SSI)** assures a minimum monthly income to needy persons with limited income and resources, who are 65, blind or disabled. Eligibility is based on income and assets.

AREA DEMENTIA DIAGNOSTIC CLINICS IN WISCONSIN

Obtaining an accurate diagnosis of a dementing disorder is often the most important first step made by patients and families in their effort to secure the education and support needed to cope with Alzheimer's disease. Diagnostic clinics provide evaluation and management services to patients and their families. A typical patient will undergo neuropsychological testing, a comprehensive history and physical examination and, if appropriate, laboratory and x-ray testing during the initial evaluation. The involvement of a social worker is a routine and essential feature.

FAMILY CARE PROGRAM

Family care is a public program that offers individuals a wide variety of long-term care services, making it possible for seniors and adults with physical and developmental disabilities to live at home and stay independent as long as possible. Services include:

- Personal Care
- Homemaking & chore service
- Occupational & Physical therapy (except during inpatient stay)
- Home delivered meals
- Specialized equipment
- All Medicaid-funded, long-term services

Family Care members receive support from a Care Management Team made up of a care manager and nurse. They perform a comprehensive assessment of your needs, abilities, preferences and values to develop a personalized plan to meet your outcomes and goals.

Members continue to choose their own physicians while Family Care provides the added long-term care support you need. Your team may make suggestions and assist in coordination, but you and your doctor will continue to be responsible for managing your health and medical care decisions.

The Family Care program can help if you:

- Have long-term care needs expected to last more than 90 days; and
- Have a physical or developmental disability; and
- Are at least 65 year old, or are at least 18 years old with a physical or developmental disability; and
- Are Medicaid eligible.

There are two Managed Care Organizations certified to provide services for Calumet County residences. They are:

- Community Care Inc. www.communitycareinc.org
- Lakeland Care District www.lakelandcaredistrict.org

For information about eligibility for enrollment into the Family Care Program, contact the Calumet County ADRC at (920) 849-1451 or (920) 989-2700.

PURPOSE: Challenge The Outdoors is an all volunteer organization that helps men, women, and children to hunt and fish or just to get out and enjoy the outdoors again. We make it easier to do some of the sports that they now have difficulty doing.

We have over 19 events such as deer hunting at many places all over the Northwest of Wisconsin, fishing for rainbow trout in a well stocked trout pond near Bonduel or many different species on Shawano Lake in Cecil. We also have a wild turkey hunt around Clintonville, a goose hunt around Horicon and a pheasant hunt near Navarino. We also have helpers and assistants to assist anyone; and we make the event fun for you to enjoy – including a delicious hot meal at all our events. We just added our Salmon Fishing on Lake Michigan at Two Rivers and Algoma and a few more shooting events at J & H Game Farm.
